

CORRESPONDENT LITE

Lighten your load and *relax!* We are happy to handle your disclosures and closing package on your behalf on all of your Correspondent files with our new CORRESPONDENT LITE OPTION.

Details:

1. If you choose to take advantage of the Correspondent Lite option, ResMac will generate and deliver all disclosures and closing packages on all of your Correspondent files. *This will apply to your entire pipeline.*
2. All closing costs and escrow impounds MUST be entered into Marti prior to registering your files. You will be utilizing the “Update Closing Costs” and “Update Escrows/Impounds” links to enter your fees. For those of you who utilize our Wholesale Channel for your FHA files, you will already be familiar with this process. If you do need assistance, simply contact the Production Support Department or your Account Executive and we will be happy to familiarize you with the process. *Please note, you will be fully responsible for entering all of your fees correctly. The LE we deliver on your behalf will be generated directly from the fees you input into these sections.
3. ResMac will do the collaboration with the closing agent, however, you, as the Correspondent, will need to approve the final CD.
4. All ResMac generated disclosures are easy to track using the Disclosures and CD tracking sections conveniently located on the main dashboard of each file in Marti.
5. The standard Correspondent fee of \$695 will be increased to \$995 on all files if you choose the Correspondent Lite option.

Please contact ProductionSupport@ResMac.com or your Account Executive if you have any questions.

We thank you for your business and look forward to continuing to serve you!
