Section 1 – Overview & Underwriting Criteria

This Product Eligibility Policy outlines the parameter requirements for residential mortgage loans submitted to ResMac B2B. This document is an integral part of the loan underwriting review process and should be reviewed in conjunction with all potential findings.

All loans will be examined and evaluated to determine whether the proposed loans generally conform to these guideline parameters. The qualifying specifications and procedures are meant to serve as a principal foundation to qualify, and each borrower will be reviewed in its entirety on an individual basis.

Section 2 - Underwriting Criteria

Appendix is intended to reference and supplement FHA’s Seller Guide (4000.1). Refer to the 4000.1 for specific information concerning qualification requirements that are not specifically referenced in the product appendix.
